

Challenges and Opportunities in (1) Genetics of Five-Needle Pines and (2) Rusts of Forest Trees Research: Conservation, Evolution and Sustainable Management in a Changing Climate

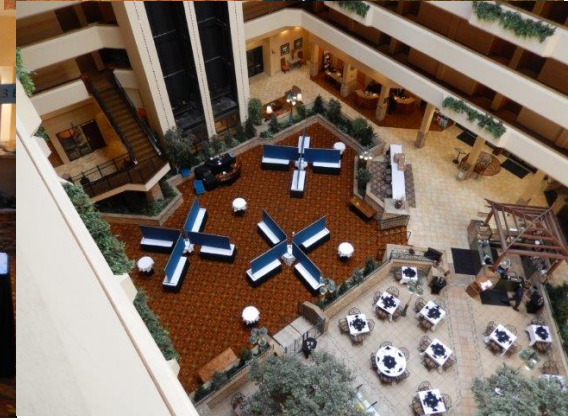

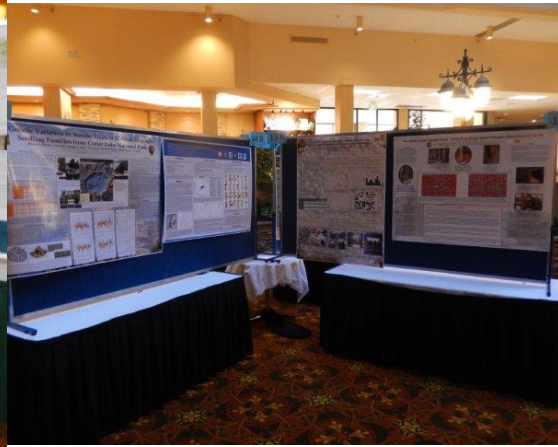

Conference

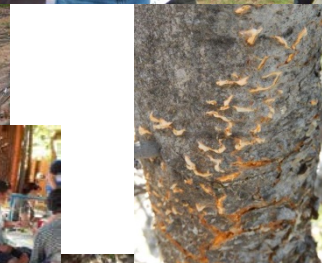

June 15-20, 2014, Ft. Collins, Colorado

Sunday/Monday

Tuesday,
June 17th

The collage consists of many small photographs arranged in a grid-like fashion. Key elements include:

- Top Left:** A woman with a purple scarf sitting at a table. Text overlay: "WED June 18".
- Top Center:** A man in a light blue shirt standing and speaking.
- Top Right:** A woman with glasses speaking at a podium. A slide behind her mentions "Cross species translocation of interspecific...".
- Middle Left:** A large group of people seated at long tables in a conference hall.
- Middle Center:** A man in a dark shirt speaking at a podium. A slide behind him is titled "Genomics study of western white pine genetic resistance against white pine blister rust".
- Middle Right:** A man in a light blue shirt speaking at a podium. A slide behind him is titled "Evolutionary Genetic Studies of 5-Needle Pines in Russia".
- Bottom Left:** A group of people seated at a table, eating and talking.
- Bottom Center:** A man in a dark shirt speaking at a podium. A slide behind him is titled "Environmental associations across the range of two ecologically and economically important five-needle pine species".
- Bottom Right:** A man in a yellow shirt speaking at a podium. A slide behind him is titled "Restoration Program for the Inland West (USA): a first generation of improvement".

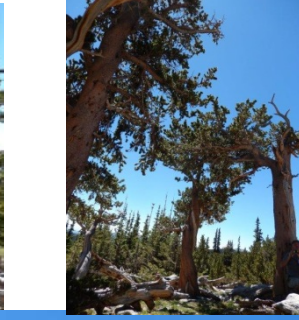

Other visible slides include:

- "Christian Anton Weiskopf, J. Martin Zulema Quiñones Pérez, Daniel Sergio Simón Rodríguez, Carlos Antonio López Sánchez, Instituto de Silvicultura, Universidad Juárez del Estado de Durango, México".
- "JUN-HUI LIU 12*, RICHARD A. SIMONO 12".
- "Policy makers".
- "Mary F. Mahalovich, Rocky Mountain, Southwestern and Intermountain Regions".
- "David L. Foushee, USFS, Clear Forks Nursery".
- "White Pine Restoration Study, Canadian White Pine".
- "White Pine Rapid Fire Prevention".
