

Small-Scale Forestry: Most Recent Findings

3.08 Side Sessions

to the IUFRO 125. Anniversary Conference

Freiburg, Germany 17. and 23. September 2017

Update and Reminder

Dear all,

I would like to inform you that we have made substantial progress in organizing our side event.

We will have an interesting day with 12 oral presentations. You can find the list of speakers and titles below.

As we had more interest than time-slots available, we included a poster session into our agenda. As we see it today, we will be able to discuss a similar number of posters during the day.

All in all, I'm looking forward to an interesting Small scale Forestry day here in Freiburg. Together with the two sessions inside the 125 anniversary congress we will be able to discuss between 40 and 50 presentations / posters related to our topic. I hope to be able to provide a final list soon.

I want to remind you that the deadline for registration for our side event is coming closer. It's surely not a matter of one day or another, but we will have to make a decision about the venue soon.

So I want to encourage all to register during the next days. In case that participation is only possible along with a contribution in the event we can offer the opportunity to submit an abstract for poster registration until July 15th.

The registration packages are listed below.

See you in Freiburg

Christoph

Oral Presentations

Butler, Brett	What is Small-scale Forestry?
Hujala, Teppo	Small-scale forestry science outside the Small-scale Forestry journal
Kays, Jonathan	Combining Deep-Row Applications of Biosolids, Short Rotation Wood Crops, and Reclamation of Marginal Soils: An Agroforestry System
Kays, Jonathan	A Model for Engaging Small Acreage Woodland Owners: The Woods In Your Backyard
Leppänen, Jussi	Wood sales income use of Finnish family forest owners
Pollumäe, Prit	Quantifying forest owners' sense of environmental responsibility
Schaitza, Erich	The Economic Viability of In-Farm Wood Gasification Micro-Generation Systems in Brazil
Sekot, Walter	How to efficiently value the growing stock of farm forests
Staal Wästerlund, Dianne	How do forest owners develop trust in their timber procurement organization?
