The 12th International Symposium on Legal Aspects of European Forest Sustainable Development will be held in Cyprus from 31 May-02 June, 2010. The symposium will kindly be hosted by Panagrotikos Sydesmos of Cyprus and supported by the respective governmental agencies and all the institutions related in the management of the local forests and natural environment of the Republic of Cyprus, as well as the Swiss Federal Institute of Technology, Switzerland.

Background

The 1st International Symposium on "Experiences with new forest and environmental laws in European countries with economies in transition" was held in Ossiach, Austria in June, 1998. This meeting was followed by the 2nd symposium on the same topic, again in Ossiach, Austria from 29 September to 3 October 1999 (with presentation of its main results during the XXIst IUFRO World Congress in Kuala Lumpur, Malaysia, in 2000). The 3rd International Symposium was held in Jundola, Bulgaria in the mid June, 2001, followed by the IUFRO 6.13.00 group meetings in Jaunmokas, Latvia 8 - 10 August, 2002, then in Zidlochovice, Czech Republic in 28 - 31 May 2003, and after that follow-up symposia took place in Poiana Brasov, Romania, in 16 - 20 June 2004, in Zlatibor Mt., Serbia, in 11-15 May 2005, in Istanbul, Turkey, in 10 - 14 May, 2006 in Zikatar, Armenia, in 19-23 June 2007 Sarajevo, Bosnia and Herzegovina, in 7-9 May, 2008 as well as in Zvolen, Slovakia in May 13-15, 2009.

Main results of the 12th Symposium will be presented during the XXIIIrd IUFRO World Congress in Seoul / Korea, in August 2010.

IUFRO 6.13.00, the forest law and environmental legislation working group, aims to promote exchange of information amongst researchers and practitioners active in forest law and environmental legislation all over the world and to permanently review the state of the subject, thereby setting priorities concerning research and practice.

Objectives of the Symposium

One of the group's foremost objectives and challenges is to stimulate and facilitate communications among researchers and practitioners responsible for forest law and environmental legislation in European countries, not only, but in particular those with economies in transition. In order to accomplish this target, this IUFRO International Symposium will be held,

- to create the opportunity for specialists from all countries, to get acquainted, involved and familiar with the new legal situation in European forests;
- to provide a forum to everyone from the European CIT involved in forest law and environmental legislation, intended to exchange experiences in formulation, implementation and administration of their new forest and forest related laws;
- to make possible a comparison between the new EU and CIT legislation in the field mentioned;
- to encourage and support an overall discussion on open questions and impending problems to be identified during this meeting.

Topics of papers

There is a quite traditional milieu of this Working Group interests:

1. Translation of political ideas referring forest and environmental laws into action since 1990 - realisation, enforcement measures, incentives and others legal provisions.
2. Balance between forestry and nature conservation at public and/or private property level.
3. Collision between regulations in forest laws and environment related legislation.
4. Interventions in and statutory restrictions on property - preconditions, extent.

Under the umbrella of these four topics mentioned, we would like to discuss in 2010 particularly latest items related to forestry and nature protection legislation, which concerns:

1. Legal aspects of different types of forest ownership
2. Legal regulations of forest management plans as a tool for sustainable forest management
3. The status of compensation of forest owners for ownership restrictions in the public or private interest
4. Legal and Institutional status of national parks as tool for sustainable forest management
5. The legal and institutional framework for recreation and environmental markets for forest enterprises

Participants

The symposium will be limited to 50 participants. In order to exchange updated information and enable fruitful discussions, one person representing policy makers (Forest Administration, State Civil Service) and one scientist or stakeholder per each country should be ideal.
