***Background***

The 1<sup>st</sup> International Symposium on "Experiences with new forest and environmental laws in European countries with economies in transition" was held in Ossiach, Austria in June, 1998, followed by another such meeting, again in Ossiach, in September/October 1999. The 3<sup>rd</sup> International Symposium was held in Jundola, Bulgaria in the mid June, 2001, followed by the IUFRO 6.13.00 group meetings in Jaunmokas, Latvia 8-10 August 2002, then in Zidlochovice, Czech Republic in 28-31 May 2003, and after that follow-up symposia took place in Poiana Brasov, Romania, in 16-20 June 2004; in Zlatibor Mt, Serbia, in 11-15 May 2005; in Istanbul, Turkey, in 10 – 14 May 2006; in Zikatar, Armenia, in 19 - 23 June 2007; in Sarajevo, Bosnia and Herzegovina, in 7 - 9 May 2008; in Zvolen, Slovakia, in 13-15 May 2009; in Larnaca, Cyprus, in 30 May - 2 June 2010, in Kaunas, Lithuania, in May 2011, as well as in Belarus Minsk on 19-21 September 2012.

IUFRO 9.06.00 (former 6.13.00), the forest law and environmental legislation working group, aims to promote exchange of information amongst researchers and practitioners active in forest law and environmental legislation all over the world and to permanently review the state of the subject, thereby setting priorities concerning research and practice.

## ***Objectives of the Symposium***

One of the group's foremost objectives and challenges is to stimulate and facilitate communications among researchers and practitioners responsible for forest law and environmental legislation in European countries, not only, but in particular those with economies in transition. In order to accomplish this target, this IUFRO International Symposium will be held with the general focus of:

### ***Adapting legislation and regulations for Sustainable Forest Management in a change environment***

In relation to this the Symposium specific objectives are:

- to create the opportunity for specialists from different countries, to get acquainted with and discuss the latest developments in the legal and policy fields, with the similarities and differences especially in the contest of the integral role of forest science, not only in research as such but also in the harmonization of the traditional knowledge, specific use of small scale forestry and coppice forestry issues, related to the traditions and needs of Balkan rural populations, their social and environmental impact
- to provide a forum for discussion on (foremost) European CIT developments related to law and environmental legislation, and exchange experiences in formulation, implementation and administration of their new forest and forest related laws and facilitate their comparison;
- to encourage and support an overall discussion on open questions, impending problems and possible solutions to be identified during this meeting.

## ***Topics of papers***

In 2013, we would like to focus discussions particularly on the following themes:

1. Translation of political ideas referring to forest and environmental laws into action since 1990 - realisation, enforcement measures, incentives and others legal provisions.
2. Policies and management options, with respect to possible conflicts between small scale and/or coppice forestry / industrial forests as well as conversion/short rotation, timber/bio-energy, rural people/industry needs
3. Balance between forestry and nature conservation at public and/or private property level, specifics regarding ownership/user rights, statutory restrictions on property, illegal logging and coppice forest degradations
4. Public-private partnerships in forestry, including specifics of CEE and Balkan countries with respect to relations of forest administrations with public/private forest owners, and the forest sector as a whole
5. Models of public forest administration.
6. Trends in the development of the forest sector and forest policy in the present conditions in Europe

## ***Participants***

The symposium will be limited to 50 participants. In order to exchange updated information and enable fruitful discussions, based on the content and quality of papers submitted by interested persons representing (i) policy makers (related Ministries, Forest Administration, State Civil Service), (ii) forest science (Universities, Research Institutes) and/or (iii) civil society - stakeholders (including forest holders associations, environmental NGOs) we intend to accept 2 participants per country. Representatives from South-Eastern European as well as Central Asian countries are particularly encouraged to participate.
