Joint IUFRO-IFSA
Task Force on Forest Education

“Shaping the future of forest education”
THE JOINT IUFRO-IFSA TASK FORCE ON FOREST EDUCATION

“Shaping the future of forest education”

A platform for addressing key emerging topics in forest education by bringing together the perspectives of non-governmental organizations, researchers, and students.

2015-2019 Achievements

Global trainings and events on emerging skills
Some of the key topics focused on include: entrepreneurship, green jobs, forest governance, climate change and sustainable forest management.

700 students from 40 countries trained

Workshop on green jobs and the future of employment in the forest sector at International Forestry Students’ Symposium (IFSS) in Estonia (2019)
Global Outlook on Forest Education (GOFE) Study
A global research project about competencies and gap analysis with active student contribution in data collection and analysis:
https://foresteducation.wordpress.com/

Global Forest Information Service (GFIS) Educational portal
A convenient and user-friendly accessible online portal showcasing a wide range of forest related information and promotes networking among the forestry community:
https://www.gfis.net/

GFIS Education Portal offering mobility and education opportunities for students

GFIS in collaboration with the joint IUFRO-IPSA task force on forest education and universities from around the World have partnered to create a space dedicated to global forest-related education.

We are inviting the schools to share education related content via the GFIS gateway. Outlined here are the World’s educational news, forest-related university programmes and online resources.

1200 forestry programmes, online learning resources and news

13 countries globally analyzed

Global Outlook on Forest Education (GOFE) Study
A global research project about competencies and gap analysis with active student contribution in data collection and analysis:
https://foresteducation.wordpress.com/
Participation in International Forestry Students’ Association

Events: Northern African Regional Meeting (NARM), INTERIM, IFSS

IFSA is one of the main IUFRO partners, together we carry out capacity building activities during regional and global IFSA events.

Global Best Practices in Forest Education Competition

The competition’s main goal was to share best practices amongst forest education stakeholders to promote learning and continued collaboration - a central tenet of the IUFRO’s structure.

For the winners of the competition, see the next page.
Winners of the 2019 competition!

Asia Pacific Forest Education Coordination Mechanism (AP-FECM) (Tertiary level), Canada

FOREST 101 programme (Middle School), Republic of Korea

The winner among the elementary and secondary education nominees is a program called FOREST 101 from Korea. This programme is planned for teenagers aiming to introduce them to nature and also to improve young students’ self-esteem and welfare.

The winner among the tertiary education nominees is Asia Pacific Forest Education Coordination Mechanism (AP-FECM). The AP-FECM is an innovative networking programme putting together a large amount of higher education institutes in an extensive geographical area. The programme has been leading the online education with MOOC courses and being exceptionally active for developing forest higher education curricula.
Honorable Mentions

Network of forest kindergartens and schools, Slovenia

Emprendedor Forestal (Young Forest Entrepreneur)
Reforestamos, Mexico
