- <http://www.eco-business.com/news/illegal-logging-shows-little-sign-of-slowng/>

Additional interesting approaches:

- 1) Nele Schmitz from Thünen Institute of Forest Genetics has made a **6-page PPT summary** presentation of the report:

Referring to the summary here: <http://scensers.org/?p=153>

Summary itself: http://scensers.org/wp-content/uploads/2016/12/IUFRO_summary.pdf

- 2) Site called “Insights on India” has picked up one key message and has asked commenters to suggest how India could tackle illegal logging and its importing (in 200 words)
<http://www.insightsonindia.com/2016/12/24/7-study-international-union-forest-research-organizations-iufro-shows-india-third-largest-importer-illegally-logged-timber-world-china-vietnam/>
- 3) Radio report about the launch of the new study broadcasted by the German WDR:
<http://www1.wdr.de/mediathek/audio/wdr5/wdr5-leonardo-top-themen/audio-illegale-abholzungen-schreiten-vor-allem-in-asien-voran-100.html>
